No portrait of Columbus exists...No artist or sculptor considered the great "Admiral" and "Discoverer" of the New World a fit subject for a portrait.

In 1486, 5 shipwrecked Spanish sailors died in the house of Columbus after returning from a voyage to the West Indies!!

Island of Madeira where  
Columbus lived.

As blood is thicker than water and the leopard cannot change his spots, Columbus resorted to his old habits of piracy, murder and theft when 5 sailors were shipwrecked on the island of Madeira. All the sailors conveniently died in the house of Columbus leaving him with their maps and charts of the location of the New World.

It was safer to be in the middle of a raging story in the Atlantic than to be a guest in the Columbus house!!

How the New World was discovered by Garcilaso de la Vega.

[Garcilaso de la Vega, El Inca.](#)

" ...And because of the delay they ran out of water and supplies. For this reason and because of the great privations they had suffered on both journeys, they began to sicken and die, and of seventeen men who left Spain, no more than five reached Terceira, among them the pilot Alonso Sanchez de Huelva. They stayed at the house of the famous Genovese Christopher Columbus, because they knew he was a great pilot and cosmographer and made seamen's charts. He received them kindly and entertained them lavishly so as to learn the things that had happened on the long and strange voyage they said they had undergone. But they arrived so enfeebled by hardships that Christopher Columbus could not restore them to health despite his attentions, and they all died in his house, leaving him the heir to the hardships that had caused their death" ([Royal Commentaries of the Incas, vol. 1, pp. 12-14](#)).

## Columbus goes to the king of Portugal.

With the dead pilot's maps and charts in his possession, Columbus went to the king of Portugal and gave him a long list of demands as his price for "discovering" new islands. The king refused his offer because he did not trust a pirate and he could easily send his own expedition using the dead pilot's maps and charts. Columbus then left Portugal and arrived in Spain in the year 1487.

## Columbus in Spain.

When Columbus arrived in Spain, that country was completely dominated by an alien force called the "Bank" of Rome. Its practical outworking was the infamous Spanish Inquisition led by the dreaded Dominican monks. The head Inquisitor named Torquemada was *also spiritual advisor* to Queen Isabella.

St. Paul was the founder of the Christ's Congregation in Spain ... not Santiago.

St. Paul was the founder of the church of Rome . . . and the church of Spain.... St. Paul told the Christians in Rome that he would stop and visit them on his way to Spain. While St. Paul was on a ship bound for Rome, Satan raised up a tremendous storm which raged for 14 days. Satan does have the power to raise ferocious storms. His plan was to sink the ship or blow it all the way to the New World in order to prevent Paul from reaching Rome . . . and Spain!!

"Whensoever I take my journey into SPAIN, I will come to you: for I trust to see you in my journey, and to be brought on my way thitherward by you, if first I be somewhat filled with your company."(Romans 15:24)	"When therefore I have performed this, and have sealed to them this fruit, I will come by you into SPAIN" (Romans 15:28).
"But not long after there arose against it a tempestuous wind. called Euroclydon. And when the ship was caught, and could not bear up against the wind, we let her drive"(Acts 27:14-15).	"And when neither sun nor stars in many days appeared, and no small tempest lay on us, all hope that we should be saved was taken away"(Acts 27:20).

## Washington City becomes Washington D.C. District of *Columbia*!!

In the U.S., the big push to *canonize* or *deify* the pirate Columbus came after the [fall of the Papal States in 1870](#). On June 1, 1871, the name of the headquarters of the government was changed from Washington City to Washington D.C. —District of Columbia!! No expense was spared by the Knights of Columbus to glorify this thief, and murderer, A seal and motto, "Justitia Omnibus" (Justice for All), was adopted for the District of *Columbia*.

In 1937 President Franklin Roosevelt proclaimed every Oct. 12 as Columbus Day and in 1971, President Nixon declared it a federal public holiday on the 2nd Monday in October.
